Discover emerging trends in healthcare simulation at the **Asia-Pacific Meeting on Simulation in Healthcare (APMSH) 2016**.

You'll collaborate with global professionals while exploring the latest research, science and technical advances influencing healthcare simulation, and, ultimately, patient safety. This is an exceptional forum that brings together disciplines, professions and countries in a casual environment.

### **APMSH DELIVERS:**

- The largest gathering of healthcare simulation professionals and industry leaders in the Asia-Pacific region
- Education for every level, from beginner to advanced
- Three days of networking opportunities
- Key-note speakers that will inspire action

### **SESSIONS WILL EXPLORE:**

- Patient Safety and Quality Improvement
- Assessment and Evaluation
- Program Administration
- Faculty Development
- Technical Operations
- Instructional Methods
- Research Methodologies
- Interprofessional Education (IPE)

### **AND MORE!**
